Fishing boats at Kharewaddo jetty ready to set sail as ban nears end

BOAT OWNERS FLAG LABOUR SHORTAGE, PENDING SUBSIDIES

THE GOAN I NETWORK

VASCO

With the annual fishing ban set to be lifted in a day's time, fishing activity has picked up at the Kharewaddo Fishing Jetty in Vasco as boat owners and crew members make final preparations for the new fishing season.

The jetty witnessed hectic activity on Thursday, with labourers loading tonnes of ice into fishing vessels, workers carrying fishing nets on board and boat owners refuelling their trawlers in anticipation of returning to the sea.

The annual monsoon fishing ban, imposed to allow fish breeding and conservation of marine resources, is coming to an end, and hundreds of mechanised fishing boats across Goa are preparing to resume operations.

Boat owners are hopeful of a productive season but say several long-pending issues continue to affect the fishing industry.

Goa Fishing Boat Owners Association President Jose Philip D'Souza said that while boat owners are eager to resume fishing, the overall mood within the fishing community is far from encouraging. He said the industry is facing an acute shortage of labourers, making it difficult for many boat owners to operate their vessels at full capacity.

D'Souza also criticised the government for allegedly neglecting the concerns of the fishing community. He pointed out that several subsidies promised to fishermen have remained pending for the last two years, placing a heavy financial burden on boat owners who are already grappling with rising operational costs, including fuel, maintenance and labour expenses.

He urged the government to immediately release the pending subsidies to safeguard the livelihood of thousands of fishermen and their families. According to him, timely support from the government is essential for the sustainability of Goa's fishing industry.

Despite the challenges, the atmosphere at Kharewaddo Jetty remained vibrant, with fishermen expressing hope that the new fishing season will bring a good catch and better returns after the two-month monsoon ban.

Labourers loading ice trays on board the trawlers at Kharewaddo jetty.

Health checks begin for migrant crew at Cutbona

MARGAO: As preparations gather pace for the commencement of the new fishing season, the Health Department has screened around 139 migrant workers who have reported to the Cutbona fishing jetty since July 25.

The health team has also distributed health kits to mechanised boat owners for use by their crew members while at sea.

Dr Chaitali Shirodkar of the Balli Primary Health Centre said the health team has been stationed at the Cutbona fishing jetty to screen migrant workers employed on mechanised fishing vessels.

"So far, we have screened around 139 migrant workers by collecting blood samples for malaria and dengue testing. The screening is being carried out daily as more workers arrive at the jetty," Dr Shirodkar said.

She added that the screening drive would continue over the coming weeks, as a large number of migrant workers are yet to report for duty ahead of the new fishing season.

The initiative aims to ensure the health and well-being of migrant crew members and prevent the spread of vector-borne diseases, as well as cholera, during the fishing season.

Oppn gearing up for short Assembly session

THE GOAN I NETWORK

MARGAO

Velim MLA Cruz Silva has criticised the decision to hold the upcoming Goa Legislative Assembly session for only three days from August 31, calling it inadequate to address the State's pressing issues.

Silva said the Assembly is the highest democratic forum where the government must be held accountable on matters concerning Health, Education, Agriculture, Fisheries, TCP, Tourism, Environment, Transport and other sectors. He pointed out that Goa is facing challenges including unemployment, rising costs, healthcare shortages, infrastructure issues, environmental concerns and delays in development projects.

Meanwhile, Goa Forward Party president and Fatorda MLA Vijai Sardesai has launched "Amcho Aavaz, Vijai", a public outreach initiative to gather issues and suggestions from citizens ahead of the Assembly session.

Sardesai said the initiative aims to ensure people's concerns are raised in the Assembly. Citizens, resident welfare groups, panchayats, civic bodies, professionals, youth and students have been invited to submit issues related to roads, unemployment, education, healthcare, agriculture, tourism, environment, housing and local governance.

After years in storage, Margao chandeliers to shine again

Civic body issues repair order for four antique fixtures

THE GOAN I NETWORK

MARGAO

Four years after the Margao Municipal Council found the antique chandeliers in the municipal hall in a state of neglect, the civic body has finally issued a work order to an agency to repair the four units at a cost of Rs 2.49 lakh.

The Margao Municipal Council had, in 2022, decided to take up the repair of the non-functioning chandeliers. However, only three of the seven chandeliers could be repaired by the civic body without inviting quotations or floating a tender.

After reports emerged that the remaining four chandeliers had gone missing from the municipal building, senior civic officials clarified that the chandelier parts had been stored inside a cupboard pending repairs.

Facing criticism for keeping the chandelier parts in storage, municipal officials invited quotations for repairing the four remaining units.

The work order issued by Margao Municipal Chief Officer Madhu Narvekar directs the contractor to complete the repair work within 30 days. The contractor has also been instructed to use good-quality materials as per the accepted quotation.

The civic body will release payment as per the approved terms after satisfactory completion of the work and certification by the concerned officer.

The contractor has been directed to hand over defective, damaged or replaced parts to the Council and comply with all applicable statutory provisions during execution of the work.

Pieces of the chandeliers are currently stacked inside a cupboard in the Municipal building.

After reports emerged that the remaining four chandeliers had gone missing from the municipal building, senior civic officials clarified that the chandelier parts had been stored inside a cupboard pending repairs
