in the MAKash customer Application.

13. In case of any query where I should call?

A. Customer can contact in the below mentioned contact points.

Customer Service Contact crm@manappuram.com 1800-420-22-33 [toll free 24 hours]

14. What should I do if I change my mobile service provider?

A. You can change the Telecom Service Provider by Mobile Number Portability, but since your mobile number remains the same, it does not affect your MAKash services and you can continue using the services as before.

15. What is the validity of my MAKash account?

- a. At present, MAFIL do not have any expiry period for the MAKash wallet. Wallets which are issued after 01.04.2024 shall have an expiry of 5 years from the issue date which can be renewed further for a period of another 5 years after KYC verification and proper due diligence.

16. Do I earn any interest on the amount in my MAKash account?

A. No, the amount in your MAKash account does not earn any interest.

17. In how much time receiver will get the money?

A. As per the RBI guidelines it will take minimum of 2-3 hours and this would be subject to NEFT/IMPS timelines. However IMPS transactions is generally credited into recipient account within few seconds if success.

18. Will I be informed when my account gets credited or debited?

A. Yes, you will always get a confirmation SMS after every transaction.

19. What will happen if I enter the wrong bank account details and money gets transferred to wrong receiver?

A. MAKash is not responsible for wrong bank account details entered by the customer and transaction effected. Therefore, whether you are transferring money using a mobile application or by retailer's assistance, the responsibility lies solely with the customer.

20. Can I reverse payment if I made it to the wrong mobile number?

A. No. Once you make payment, there no way to reverse it. You should ensure that you enter the mobile number correctly to avoid this problem.

21. Can I pay for someone else's bills? A.

Yes, you can pay for anyone else.

22. When does the biller receive my payment?

A. Your account is debited as soon as you initiate a payment request and will be sent to the Utility biller within two days. Every payment made by you carries a unique transaction ID that can be used to track each payment independently.

23. Do I have to pay the entire bill amount?

A. This will depend upon the biller. You can make a payment in full or in part depending upon whether the biller provides you with that facility.

24. Can I make a payment to a biller who is not on your biller list?

A. No. You can only make payments to participant billers who have been enrolled in the MA-Kash platform.

25. Will I receive a confirmation of the bill paid?

A. Once the bill payment is successful, MAKash will send a message to your mobile number. In case you don't receive a confirmation message, please check "transaction history" or you can contact our call Centre for details.

26. What if I want a physical receipt (for reimbursement etc)?

A. On payment of bill through MAKash, you will only get a confirmation on your mobile screen & an SMS from MAKash stating his transaction ID. If you want a physical receipt, you will have to contact the respective Utility Board. Please note that the payment status at the biller's end is updated on a normal span of 4 days after a payment is made using MAKash.

27. I paid the bill through MAKash but my service still got disconnected. The biller company is saying that they haven't received the bill payment yet. I want a refund.

A. Kindly raise a complaint with the customer care with the following bill payment details - Date on which payment was made, mobile number registered with MAKash, MAKash transaction ID, amount paid, Name of merchant, due date or last date of payment of bill.

28. I initiated a payment on my MAKash but the status showed "submitted/Pending". What should I do?

A. The status shows that the request has been dispatched but not yet processed. This could be due to a network delay. Please wait for a few minutes for the request to be processed. In case the status remains "Submitted" for more than 40 minutes (which is highly unlikely), please check your transaction history by contacting our customer care.

29. What if I lose my mobile phone?

A. Your money on mobile is always safe by your 6-digit mPIN/Password. In case of loss of SIM/phone, please block your MAKash account by calling the Customer Care Executive. When you activate your fresh SIM card with old lost number, you can unblock your MAKash account by calling Customer Care and sharing information as requested for authentication.

30. Can my account get locked? What should I do?

A. Yes, if we detect suspicious activity on your account, we may sometimes lock the account. This is done to protect your money.

Your account may also get locked in case of 3 wrong mPIN /password attempts as a security measure. You can reset your password by clicking the option in the app “Forgot Password”. After proper authentication by entering the date of birth and OTP, you can reactivate your account.

31. What is mPIN/Password?

A. mPIN stands for mobile personal identification number and is prompted for customer authentication for every transaction initiated by you.

32. When should I create my mPIN/password?

A. Your mPIN/Password needs to be created when you activate your account right after your registration.

33. What are the mPIN/Password rules that should be fulfilled while creating an mPIN?

A. mPIN/Password should be numeric and 6 digits in length. There should be no spaces between the digits.

Customers are recommended to set up strong password.

34. What if I forget my mPIN/Password?

A. You can reset your mPIN via forget password /mPIN feature on MAKash App. New mPIN shall be sent to your registered mobile number.

35. What happens if I make wrong mPIN/Password attempts?

A. After three wrong mPIN/Password attempts your account will automatically locked by the system for security reasons.

You can reset your password by clicking the option in the app “Forgot Password”. After proper authentication by entering the date of birth and OTP, you can reactivate your account.

36. How can I reset my mPIN?

A. Go to your MAKash mobile application go to change mPIN. You will be asked to enter old mPIN and enter and confirm new mPIN, and then submit. It will be changed instantaneously and you can transact using your new mPIN.

37. What happens if I lose the mobile phone signal while using MAKash for a transaction?

A. If this happens, the payment may or may not have gone through. To confirm, wait for a few seconds, and then check your account balance and activity history. If you are still unsure of the status of your payment, please call Customer Support.

38. What do I need to provide if I call the Customer Care regarding a particular transaction?

A. You should have the transaction ID and specify the type of service used, time and error message if any displayed related to that transaction and provide that to the Customer Support representative.

39. What do I do if I want to discontinue this service/close the wallet?

A. MAFIL will give an option to close the PPI and transfer the balance as per the applicable limits of this type of PPI. For this purpose, MAFIL will provide an option, including at the time of issuing the PPI, to the holder to provide details of predesignated bank account or other PPIs of same issuer (or other issuer as and when permitted) to which the balance amount available in the PPI shall be transferred in the event of closure of PPI, expiry of validity period of such PPIs, etc

40. What happens to the money that I have in my MAKash when I close this account?

A. MAFIL will give an option to close the PPI and transfer the balance as per the applicable limits of this type of PPI. For this purpose, MAFIL will provide an option, including at the time of issuing the PPI, to the holder to provide details of predesignated bank account or other PPIs of same issuer (or another issuer as and when permitted) to which the balance amount available in the PPI shall be transferred in the event of closure of PPI, expiry of validity period of such PPIs, etc.

41. Can my MAKash account expire?

A. Yes, All PPIs issued in the country shall have a minimum validity period/Expiry of (3) Three year from the date of last loading / reloading or transacting in the PPI. Wallets which are expired can be renewed further for a period of another 3 years after KYC verification and proper due diligence.

42. What are the services offered by MAKash?

1. Send money to a Bank account
2. Send money to another MAKash wallet.
3. Recharge mobile 4. Pay utility bills.

Make utility payments Please visit the MAKash app to view the complete list which is updated from time to time.

43. How do I keep my account secure?

- Never share your login credentials / password with any one
- Beware of websites & social media pages that propagate fake offers.
- Change your password regularly.
- Never entertain calls/email/SMS asking for MAKash credentials or credit/debit card/net banking details.
- Never Share details like your date of birth, mothers name etc with anyone.

44. What should I know about email fraud?

- Be aware of any email message that requests personal data-such as passwords, or weblinks that direct you to a web site that asks for any such confidential information. This practice is referred as Phishing, which is fraudulent communication designed to deceive consumers into divulging personal, financial or account information.
- These websites or emails may involve the illegal practice of "spoofing," or forging a website or email address to resemble another legitimate website, email address and business. Remember to never enter your credentials over such websites or send personal information via an email. If you come across such websites or receive such emails, please contact MAKash customer care or call centre immediately.

45. What should I know about phone fraud?

A. It's important for consumers to know that MAKash will not call customers to request their personal account information or any debit card or net banking details. MAKash call centres do not initiate outbound telemarketing calls. Consumers should not respond to any phone calls with requests for any such information and are advised to immediately report the situation to local law enforcement as well as the concerned financial institution.

46. What to do if you suspect fraud?

A. If your debit card or bank account is involved, immediately contact the bank or financial institution that issued your card.

47. What is Verified by Visa or VBV?

A. VBV is an additional protection offered by Visa in conjunction with your Debit card issuing bank. VBV protects your Visa card with a VBV password (also referred to as the 3D secure password) that has been created by you. It also provides the added assurance that only you can use your Visa card online. You can simply register your card and choose a 3D secure PIN. This PIN will be required whenever you use your card to make Internet purchases. It prevents unauthorized usage of your card on the Internet, ensuring greater security on online purchases.

48. What is MasterCard Secure Code?

A. MasterCard Secure Code is a service offered by banks in partnership with MasterCard. This service provides a way to PIN-protect your card usage on the Internet. You can simply register your card and choose a 3D secure PIN. This PIN will be required whenever you use your card to make Internet purchases. It prevents unauthorized usage of your card on the Internet, ensuring greater security on online purchases.

49. When a wallet will be treated as inactive?

A. PPIs with no financial transaction for a consecutive period of one year shall be made inactive by the PPI issuer after sending a notice to the PPI holder/s. These can be reactivated only after validation and applicable due diligence. These PPIs shall be reported to RBI separately.
