Assam Pushes Maize Cultivation Amid Ethanol Demand; Opposition Flags MSP Gaps

The Assam Rising, Guwahati, Guwahati 30 : The Assam government on July 29 urged farmers to diversify towards maize cultivation, highlighting rising demand from the ethanol industry and the potential for higher farm incomes. The move, however, drew criticism from the Opposition, which flagged gaps in ensuring farmers receive the Minimum Support Price (MSP).The issue was raised during the Budget Session of the Assam Legislative Assembly by Congress MLA Mohibur Rahman. He pointed out that despite the Centre fixing the MSP for maize at ?2,410 per quintal last year, farmers in his constituency are often forced to sell their produce at around ?1,500 due to inadequate procurement facilities."Maize cultivation in our area is increasing every year, but farmers are unable to realise the MSP. The government must ensure proper procurement mechanisms before the next marketing season," Rahman said, stressing the need for better infrastructure and market access.He also raised concerns over mustard farmers, noting that while the MSP stands at ?6,200 per quintal, many are receiving only ?4,800 to ?5,000 in local markets. According to him, the gap between announced MSP and actual earnings is discouraging for cultivators.Responding to the concerns, Agriculture Minister Pijush Hazarika said the state government is supplementing the Centre's MSP through additional incentives and is actively promoting maize cultivation due to its expanding market."The Centre has fixed the MSP for mustard at ?6,200 per quintal, and the state is providing an additional ?300, making it ?6,500. For maize, the Centre's MSP is around ?2,400, and we are adding ?250 per quintal as an incentive," Hazarika said.He emphasised the growing role of the ethanol industry in creating demand for maize, describing it as an emerging opportunity for farmers. The minister noted that regions like South Salmara and Mankachar together produced over 5,300 metric tonnes of maize last year, reflecting increasing adoption.Hazarika further claimed that maize cultivation has become more profitable, with farmers able to earn up to Rs 35,000 per bigha. He added that ethanol production would not only boost farmer incomes but also help reduce India's dependence on imported fuel.The debate highlights the dual challenge of encouraging crop diversification while ensuring effective procurement systems so that farmers can fully benefit from government support measures.
